SURVIVE VAMPIROR

You are the horde

A browser strategy game
by meatPigeon

Forty zombies. One shared lifeline.

You steer the entire horde.
Zombies bite automatically.

Keep at least one permanent zombie alive to continue the march.

Temporary allies change the tactics

Recruit at scattered craters

Turn temporary recruits into passable corpse mines.

Choose abilities and perks between battles.

A kingdom worth conquering

Village Graveyard
Village Chapel
Royal Road
Fortress Outskirts
Castle Courtyard

5 defenders
10 knight attacks

Built for a browser audience

Click, keyboard or touch controls

Cloud checkpoints and location retries
Adventure and Relentless difficulty
Remappable controls and motion settings

Five-location browser release
83 automated tests passed

Solana identity for your horde

Your wallet restores your march

Sign an iDos login message.
Recover your campaign and records
on another browser.

No transaction fee to sign in.

HORDE on Solana

Mainnet mint verified.
The token is separate from sign-in.

Gameplay stays open to guests.

Private cloud saves on iDos

The next march

Next development priorities

Broader device and balance testing
More locations and enemy patterns
Community feedback and new content
